NOMADS HAVEN

www.nomadshaven.co

- Air Domes
- Event & Hospitality
- Industrial & Storage
- Sports Halls
- Arch & Curve
- Clear-Roof & Glass

WELCOME

Six structure families. One partner from sketch to handover.

Nomads Haven supplies large-span temporary and permanent structures to businesses, venues, sports operators and public bodies across Europe, the UK, the United States and the Gulf. Every project is sized to your site and use: we work out span, height, layout and fit-out with you, then manage manufacture, shipping and installation support.

01 page 03

Air Domes

The roof is the building.

02 page 05

Event & Hospitality

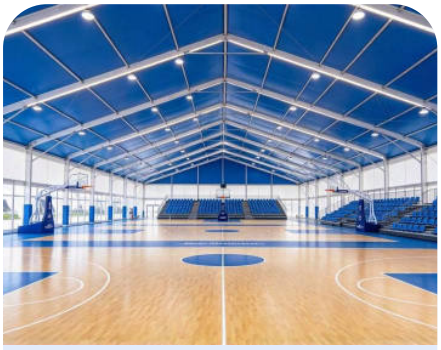

Venues that make the occasion.

03 page 07

Industrial & Storage

Capacity in weeks, not months.

04 page 09

Sports Halls

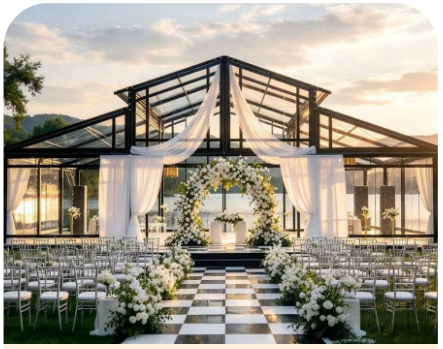

Play through every season.

05 page 11

Arch & Curve

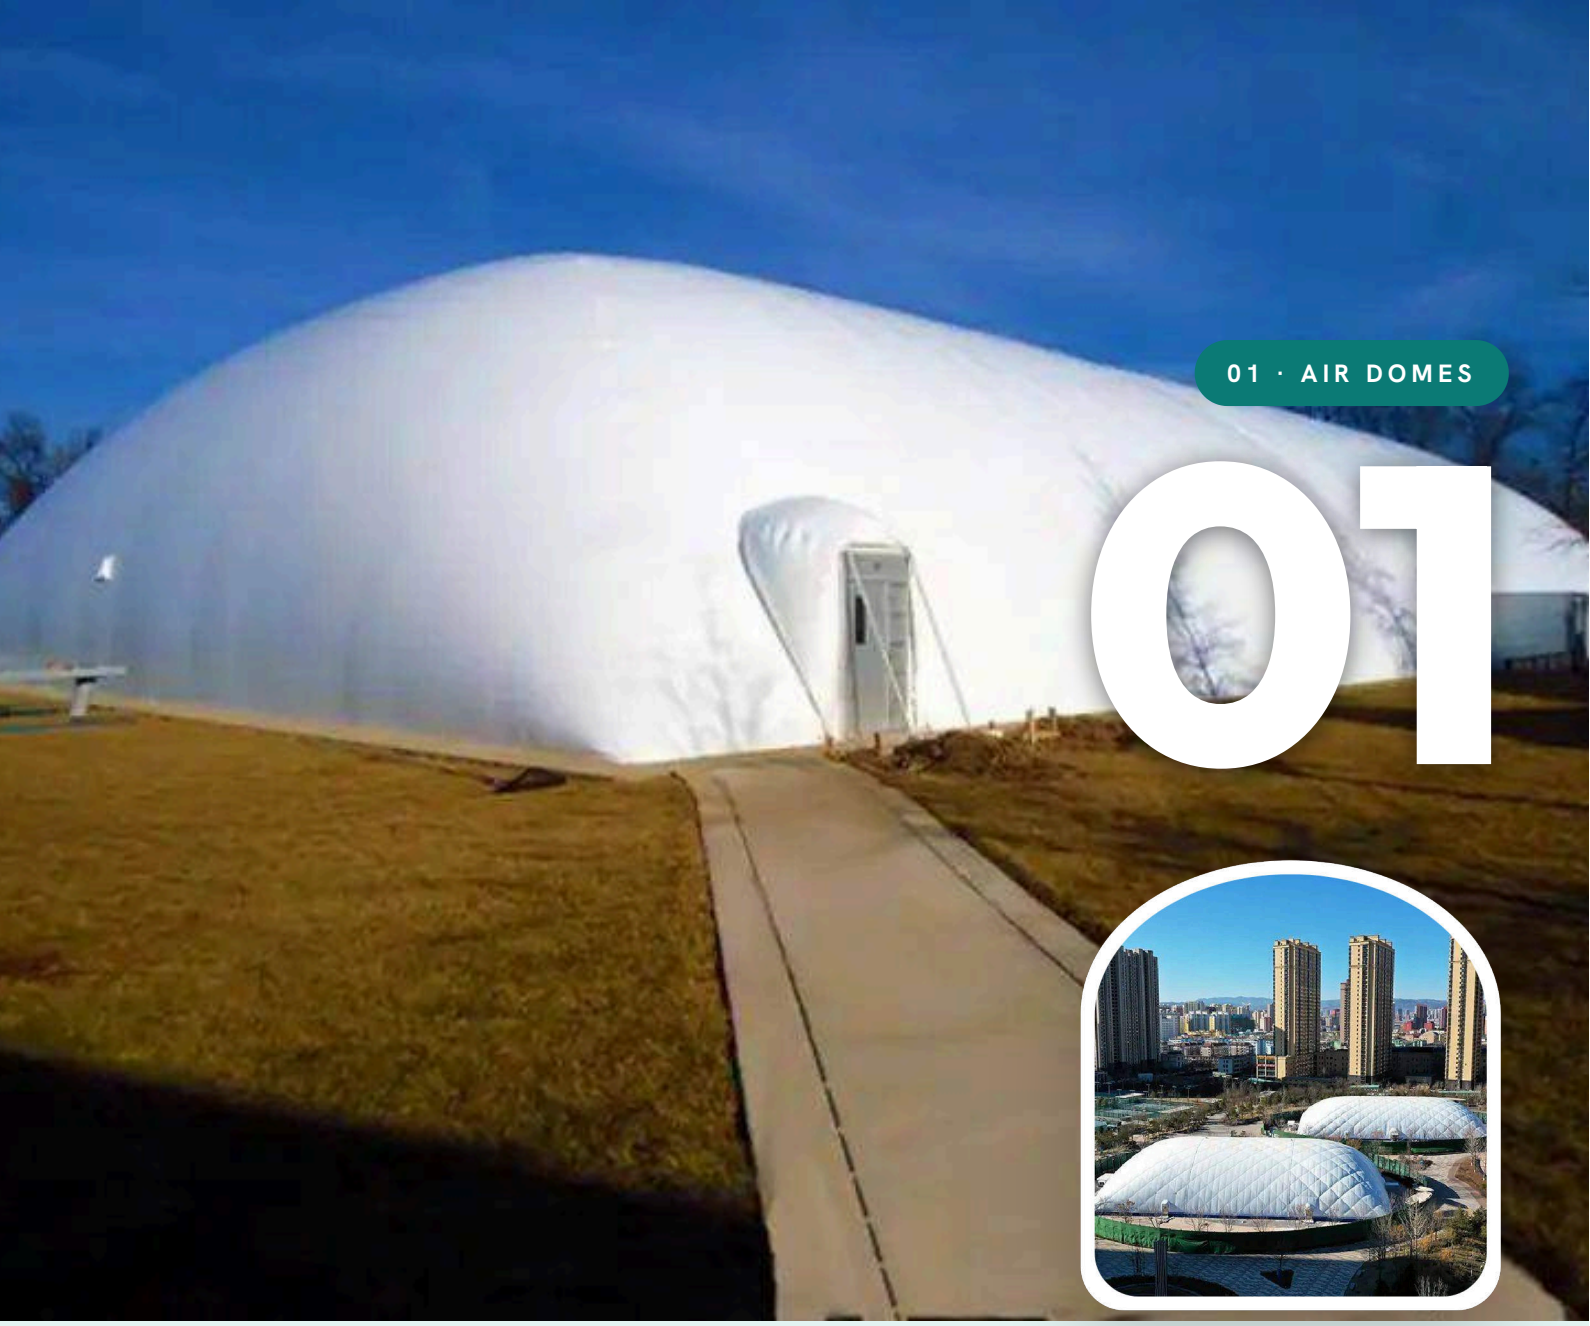

A silhouette people remember.

06 page 13

Clear-Roof & Glass

Let the view be the venue.

01 · AIR DOMES

01

Air Domes

The roof is the building.

Air-supported domes held up by gentle internal air pressure from quiet, continuously running blowers. No columns and no trusses — one clear, bright volume for a full pitch, a set of courts, a pool or a storage yard, ready in a fraction of conventional build time.

Column-free

Every square metre is usable floor, wall to wall.

Fast install

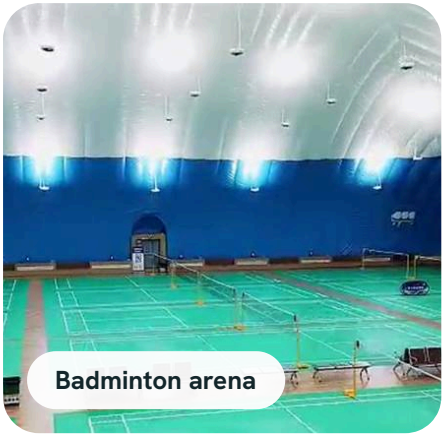

Light foundations; inflation in a matter of hours.

Relocatable

Deflate, pack and move when plans change.

In use & specification

Rooftop sports

Badminton arena

Football dome

Bulk storage

Technical snapshot

Membrane	PVF / PVDF / PVC coated polyester
Membrane grades	1050 g/m^2 · 5000 N | 1150 g/m^2 · 6000 N | 1350 g/m^2 · 7000 N
Wind load	100 km/h (sports, pools) · 120–140 km/h (storage)
Snow load	10 cm floating snow
Temperature	–30 °C to +70 °C
Design life*	20 years (storage domes 25 years)
Certification	SGS tested · ISO 9001:2015

* Manufacturer data. Final specification confirmed per project and site.

Applications

Football & pitches · Tennis & padel · Badminton · Swimming pools · Bulk & coal storage · Rooftop sports

Options & fit-out

- Double-layer PVDF membrane
- CE / UL certified blowers
- Standby ventilation unit
- LED lighting
- Heating & cooling
- Revolving & sliding doors
- Printed branding
- Anchoring system

02 · EVENT & HOSPITALITY

02

Event & Hospitality

Venues that make the occasion.

Clear-span aluminium halls dressed for weddings, galas, exhibitions, launches and hospitality. Add lining, chandeliers, glass walls, flooring and climate control to turn any lawn, beach or car park into a finished venue.

Any guest count

Modular bays from intimate dinners to thousands.

Fully dressed

Lining, lighting, flooring and HVAC to suit the theme.

Any site

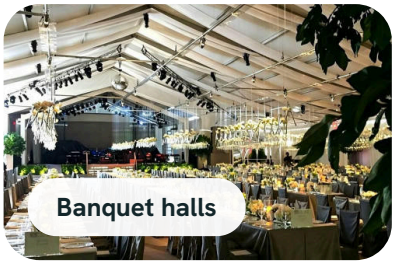

Lawns, beaches, rooftops and car parks.

In use & specification

Technical snapshot

Frame	Extruded aluminium 6061-T6 / 6082-T6
Roof cover	650 / 750 / 850 g/m^2 double-side lacquered PVC — UV resistant, waterproof, fire retardant (B1)
Walls	PVC, glass, ABS hard wall or sandwich panel
Span / height	3–70 m+ span · 4–15 m+ clear height · length unlimited
Wind / snow	80–120 km/h · 10 cm snow
Temperature	–30 °C to +70 °C
Design life*	Frame 15+ years · PVC fabric 5–10 years

* Manufacturer data. Final specification confirmed per project and site.

Applications

Weddings · Banquets & galas · Exhibitions & expos · Product launches · Pagodas & VIP · Hospitality

Options & fit-out

- Roof & wall lining
- Raised flooring
- Air-conditioning
- Pagoda units 3–10 m
- Chandeliers & lighting
- Glass walls & doors
- Stage & mezzanine
- Branding & print

03 · INDUSTRIAL & STORAGE

03

Industrial & Storage

Capacity in weeks, not months.

Relocatable warehouses, workshops and logistics halls with wide clear spans for racking, forklifts and trucks. Choose PVC, sandwich-panel or hard walls, with roller-shutter and sliding doors sized to your fleet — and move the whole building if your operation moves.

Clear spans

No internal columns to work around.

Truck access

Large doors for forklifts and HGVs.

Insulated option

Sandwich panels for temperature-sensitive stock.

In use & specification

Design life*	Frame 15+ years · PVC fabric 5–10 years

* Manufacturer data. Final specification confirmed per project and site.

Applications

Warehousing · Logistics hubs · Workshops · Bulk materials · Cold & dry storage · Seasonal overflow

Options & fit-out

- Sandwich-panel walls
- Roller-shutter doors
- Sliding doors
- Skylight panels
- Ventilation
- Insulated roof
- Concrete-anchor base
- Racking layouts

04 · SPORTS HALLS

04

Sports Halls

Play through every season.

Covered courts, pitches and pools for clubs, schools, academies and leisure operators. Generous clear heights for ball sports, with lining, lighting, climate control and sports flooring to suit each discipline.

Ball-sport heights

Clear height sized to the game.

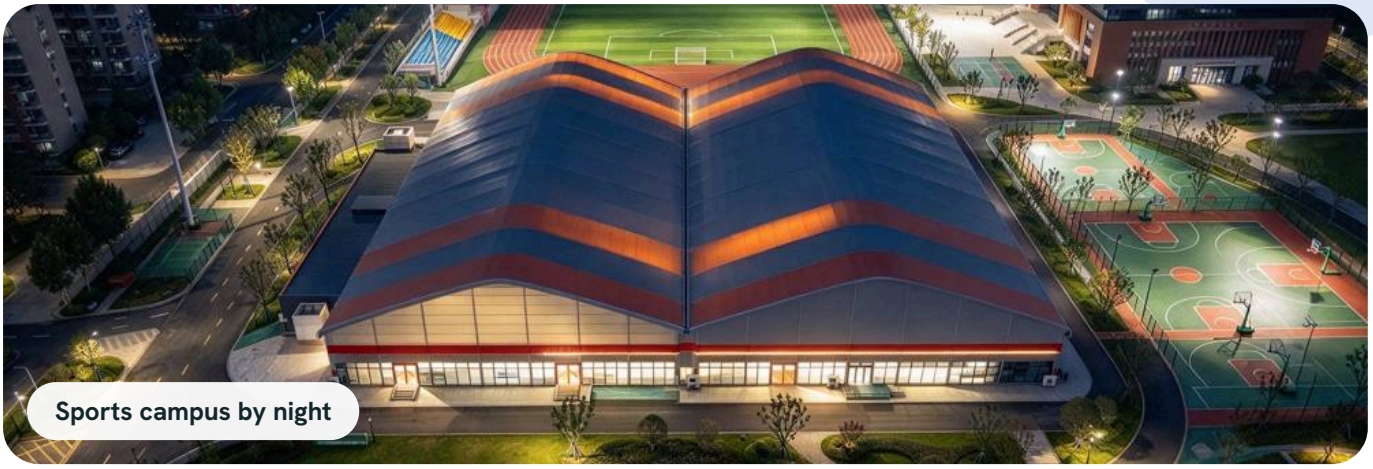

Even lighting

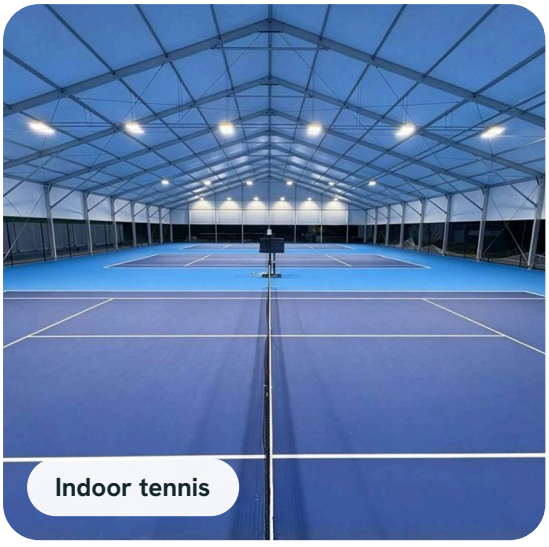

Glare-controlled LED for play and broadcast.

Year-round

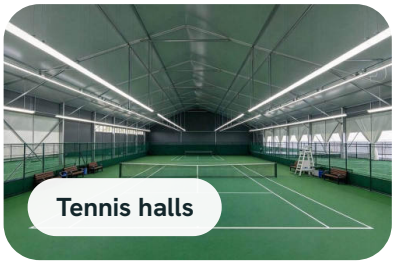

Rain, heat or cold — the schedule holds.

In use & specification

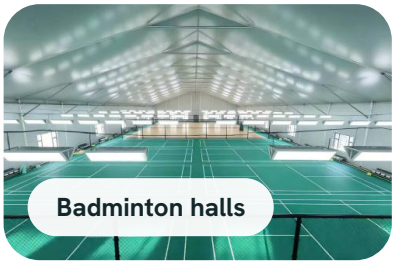

Sports campus by night

Indoor tennis

Swimming pools

Tennis halls

Night play

Badminton halls

Applications

Tennis & padel · Basketball · Badminton · Football & futsal · Swimming pools · Gyms & fitness

Options & fit-out

- Sports flooring
- Roof lining
- HVAC
- Changing rooms
- LED sports lighting
- Spectator seating
- Glass fronts
- Club branding

05 · ARCH & CURVE

05

Arch & Curve

A silhouette people remember.

Curved and arched roof profiles give showrooms, sports centres and venues a striking outline, while keeping the same clear-span frame, wall and fit-out options as our standard halls. Coloured roof membranes turn the structure into a landmark.

Landmark outline

A shape that stands out on any skyline.

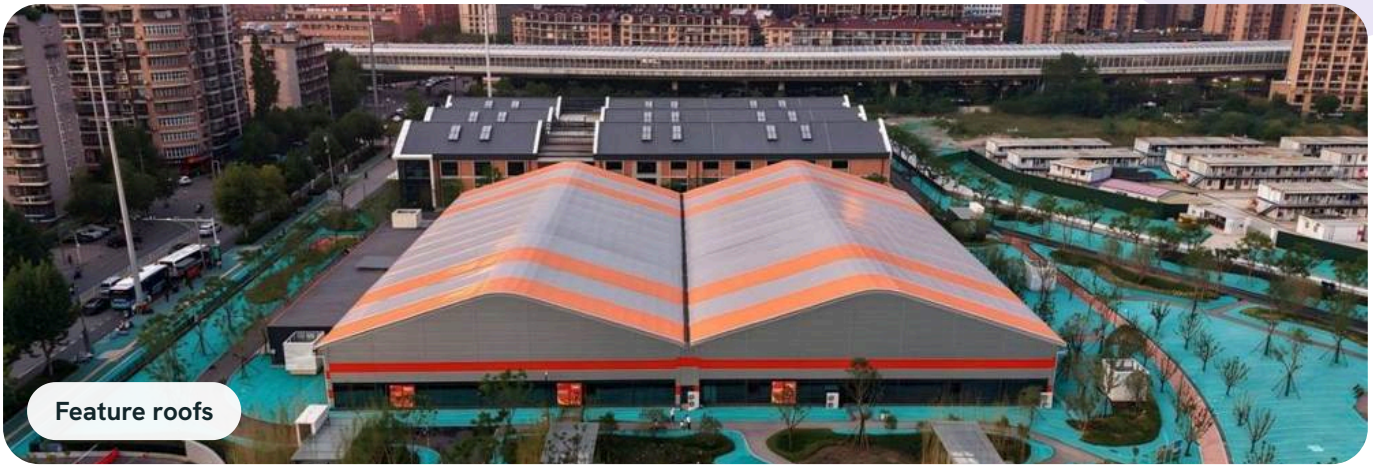

Coloured roofs

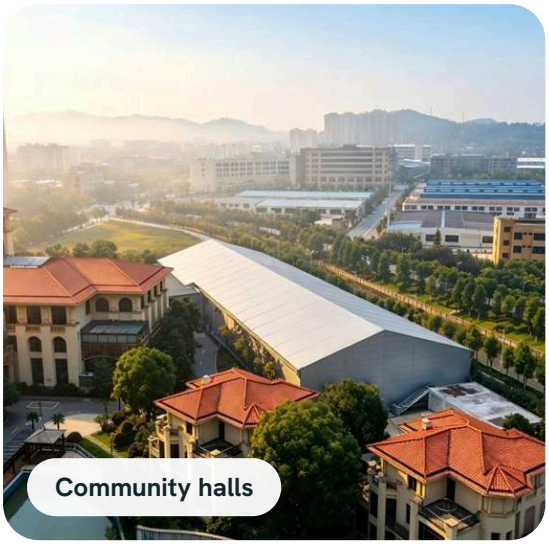

Membrane colours to match your brand.

Same flexibility

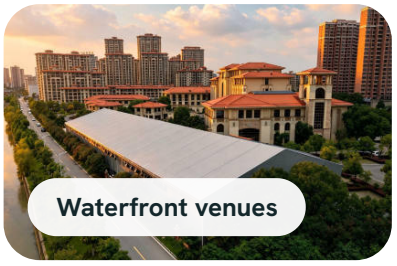

All standard wall and fit-out options.

In use & specification

Technical snapshot

Frame	Extruded aluminium 6061-T6 / 6082-T6
Roof cover	650 / 750 / 850 g/m^2 double-side lacquered PVC — UV resistant, waterproof, fire retardant (B1)

06 · CLEAR-ROOF & GLASS

06

Clear-Roof & Glass

Let the view be the venue.

Transparent roofs and full-glass walls for lakeside dining, garden weddings, resorts and premium hospitality. Daylight by day, the night sky after dark — a signature structure that becomes the reason guests come.

Open to the sky

Transparent roof panels, framed views.

Premium finish

Black or silver frames, glass walls.

Day to night

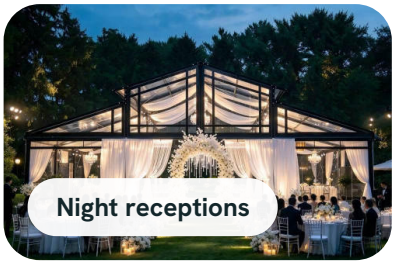

Stunning in daylight and under lights.

In use & specification

Conservatory dining

Countryside venues

Ceremony pavilions

Night receptions

Garden halls

Clear-roof halls

HOW WE WORK

From enquiry to opening day.

1

Tell us the brief

Use, site, size and timing — a short call or the website quote form is enough to start.

2

Design & proposal

We size the structure, suggest layout and fit-out, and send drawings with a tailored quotation.

3

Manufacture & shipping

Production to the agreed specification, packed and shipped to your site.

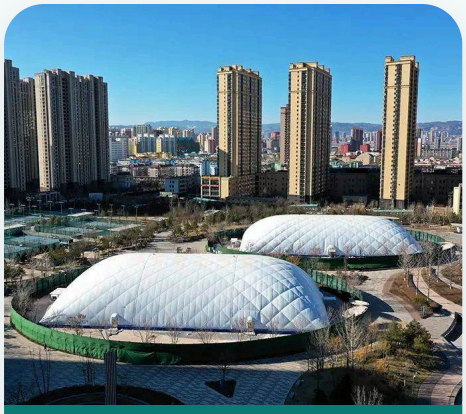

4

Installation & handover

Installation supervision and support so your space is ready to use.

For a fast quote, send us

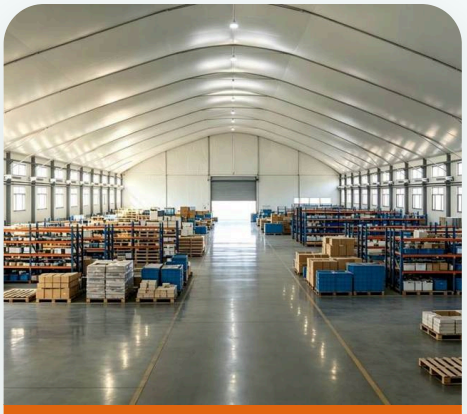

- Intended use and capacity
- Site location and ground type
- Fit-out: flooring, HVAC, walls
- Approximate width × length
- Required clear height
- Target date and duration
